ADD A BEER MENU

Under *Dashboard > My Apps > Beer Menu > Add*

Use the Beer App to create a menu of your beer offerings. The app will populate all the data for the beer along with logos to create a listing page on the interface. Select the **Beer Menu** link under the Add column to create a menu. Then fill in the information below (* = *Required Field*):

- **Body:** Enter a summary to be used as the opening paragraph(s) for your beer menu page.
- **Beer:** Start typing the beer or brewery name and choose the item from the dropdown options. *Note: please contact your content manager if the beer you are trying to enter is not listed.*
- **Served In:** Choose the option that best represents how you offer the beer: On Tap, Bottle, Can or Cask.
- **Variety:** Use *Varieties* to set the price for the beer entered. For example, you can have separate *Varieties* with separate prices for a "16oz" and a "20oz" version of the beer. Create at least one *Variety*. If you only have one *Variety* of a Beer, you can leave the description blank.
 - ▶ **Description:** A short description of this variety of the item (e.g. Small, Large, 16oz, etc.). Leave it blank if there is only one variety of this item.
 - ▶ **Price*:** Enter the item price of the variety.
 - ▶ **Calories:** Enter how many calories are in the variety of beer.
 - ▶ **Add Another Item - Variety:** Select the button to add another variety of the beer.
- Select **Add Another Item** button below the first listing to add another beer item to the menu.
- Select the **SAVE** button to publish the new content.

UPDATE THE BEER MENU

Under *Dashboard > My Apps > Beer Menu > Actions*

Once a beer menu is published, the **View**, **App Content** and **Embed** links will become available under the Actions column.

- ▶ Select **View** to see the beer items live on the Beer Menu app.
- ▶ Select **App Content** for quick deleting, publishing and unpublishing of the menu by use of the drop box. Select the **Edit** link to make changes to the items. Be sure to select **Save** after making changes.
